

# CRYSTAL CLEAR 550

## Clarity Restoration Agent for Glass Panels and Windows

### OVER 95% OF GLASS WITH STAGE I CORROSION CAN BE SAFELY RESTORED WITH CRYSTAL CLEAR 550!

No single product can remove all damage to all glass. But, for 95% of uncoated glass with stage I corrosion WINSOL CRYSTAL CLEAR 550 is the clear choice. (Estimates suggest 90% of all glass used on existing buildings nationwide today is uncoated and therefore is safe to treat.)

Obviously, coated glass (metallic, mirror finish, etc.) and glass etched with stage II corrosion require more aggressive treatments to remove surface damage. For the vast majority of all window panes, a simple, one-step application of CRYSTAL CLEAR 550 will renew optical clarity and save the effort and costs of polishing, (which removes some glass surface) scraping (which scratches) or possible window replacement. CRYSTAL CLEAR 550 removes no glass!

Stage I corrosion is a complex combination of alkaline film, corrosive elements, metallic deposits and mineral/water run-off on glass over time and is not affected by traditional cleaning methods. CRYSTAL CLEAR 550 uses a blend of anti-oxidants and chelates to break up and dissolve these deposits so they can be easily rinsed away exposing the quality glass beneath.

- ✓ Now, restore glass as easily as washing it!
- ✓ Dissolves rust and mineral deposits from glass
- ✓ Removes hardwater stains caused by sprinklers
- ✓ Removes new construction run-off stains
- ✓ Removes building run-off stains
- ✓ Removes brick and mortar residues from glass
- ✓ Restores glass surface quality and clarity
- ✓ Cuts restoration time to nearly nothing
- ✓ Very Profitable - the only price you have to beat is the cost of installing new windows

### QUALITY ASSURED TESTING COMPLETED

Extensive testing has proven CRYSTAL CLEAR 550 cannot change or harm the integrity of glass, but it can expose pre-existing etching and erosion under stage II build-ups. You can't restore all the damaged glass. There are panes that have been scratched, etched, eroded and cracked that should be replaced. But for all the rest suffering from a surface deposit of minerals and similar residues, there is CRYSTAL CLEAR 550. Try it again. You'll like it. Guaranteed!

Rev. 9/08

### Recommended for:

Airports  
Schools  
Building Maintenance  
Services  
Sports Facilities  
Municipalities  
Museums  
Hotels  
Restaurants  
Public Safety Departments

... Anywhere glass may be  
damaged by time,  
weather and the  
elements

### Exceptions:

Do not use on coated or  
externally colored glass,  
on automotive glass or  
reflective glass

# CRYSTAL CLEAR 550

*Clarity Restoration Agent for Glass Panels and Windows*

## TYPICAL PROPERTIES:

TYPE	Acidic antioxidant
COLOR	Colorless Liquid
FRAGRANCE	Slightly Acidic
WEIGHT PER GALLON	8.6 Lbs.
FREEZING POINT	32° F.
FLASH POINT	Non-Flammable
pH	1-3 in Concentrate
SOLUBILITY IN WATER	100%

### FOR PROFESSIONAL USE ONLY

WINSOL CRYSTAL CLEAR 550 is the clarity restoration agent more professionals reach for than any other agent. It has even been selected by glass manufacturers as the preferred clearing agent for their glass. Help your customers restore clarity to their glass without the expense of replacement. Order yours today.

Read entire label and OSHA (or Canadian WHMIS) Material Safety Data Sheet before using this or any chemistry.

**NOTE.** Because the use of this product is subject to conditions beyond the control of the seller, distributor and/or manufacturer, WINSOL LABORATORIES, its distributors and/or sales agents make no warranty of any kind, expressed or implied, as to this material or its use. Always test before using.

#### CAUTION:

KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY. USE WITH ADEQUATE VENTILATION. AVOID DIRECT CONTACT WITH EYES. WASH THOROUGHLY AFTER USE. STORE IN A SAFE MANNER. DISPOSE OF CONTAINERS IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REGULATIONS. WINSOL ENCOURAGES CUSTOMERS TO RECYCLE ALL CONTAINERS. ALWAYS USE ALL SAFETY PRECAUTIONS LISTED IN THE MSDS AND ON THE PRODUCT LABEL. WEAR CHEMICAL RESISTANT CLOTHING, GLOVES AND CHEMICAL SPLASH GOGGLES WHEN HANDLING THIS PRODUCT. ALWAYS RINSE CAREFULLY. DO NOT ALLOW PRODUCT TO RUN DOWN BUILDING FACES UNCHECKED. THIS PRODUCT CONTAINS HYDROFLUORIC ACID AND MAY BE FATAL IF SWALLOWED. CAUSES BURNS WHICH MAY NOT BE IMMEDIATELY PAINFUL OR VISIBLE.

**MIXING INSTRUCTIONS:**  
Use undiluted. Do not allow dripping or run-off

**COVERAGE:**  
One gallon will clear up to 4,000 square feet of glass

**PACKAGING AND SHIPPING WEIGHTS:**

Single gallon	10 lbs.
4 gallon case	37 lbs.
5 gallon pail	47 lbs.
55 gallon drum	500 lbs.

**SHELF LIFE:**

Approximately one year in tightly covered container.

Training manual and information booklet available on request.
